

## **13th INTERNATIONAL SCIENTIFIC PROFESSIONAL CONFERENCE**

**On the basic topic:**

### **CURRENT SITUATION OF PHYSICAL EDUCATION AND SPORTS ACTIVITIES IN CLASS TEACHING**

**Free topics in the field of:**

### **PHYSICAL EDUCATION, SPORTS AND KINESIOLOGY**

**Veles, 17<sup>th</sup> and 18<sup>th</sup> April 2015**

*At the Mladost Lake, near the town of Veles, the Federation of Sports Pedagogues of the Republic of Macedonia, in cooperation with the Agency of Youth and Sports and the Union of the Sports Federations of Macedonia, held the 13th International Scientific-Professional Conference.*

*The Conference was attended by over 130 prominent pedagogues from a great number of upbringing and educational, scientific, social and sports organizations in the Republic of Macedonia and from other countries.*

*In his opening presentation, Prof. Sci. Dr. Aleksandar Naumovski, President of the Federation of Sports Pedagogues of the Republic of Macedonia addressed the participants in the Conference.*

*The participants were also welcomed by a number of managerial staff and representatives of university institutions, sports federations, schools and other organizations from the country and from abroad.*

*The Conference work included presentation of 115 professional and scientific studies on the basic topic of the Conference and on other topics in the fields of kinesiology and sports activities, kinesiotherapy, sports recreation, as well as in other fields of the physical education and sports.*

*The presented professional and scientific studies, and the most of the participants' discussions, contributed for making conclusions and analysis on a great number of professional and scientific questions and issues with regard to the Conference topics that have not been enough addressed so far.*

*Based on this, a number of conclusions were made for taking further program activities for the present situation improvement and for faster development of the physical education and sports activities in class teaching. Same conclusions were made for development of the kinesiology activities.*
