

## **14<sup>TH</sup> INTERNATIONAL SCIENTIFIC AND PROFESSIONAL CONFERENCE**

**On the basic topic:**

### **RELATIONS BETWEEN STUDENTS INVOLVED IN PHYSICAL EDUCATION AND TRAINING PROCESS FOR ANTHROPOLOGICAL STATUS AND SPORT RESULTS IMPROVEMENT**

*Veles, 22<sup>nd</sup> – 23<sup>rd</sup> April, 2016*

The Federation of Sports Pedagogues of the Republic of Macedonia, in organization with the Agency of Youth and Sports, the Macedonian Olympic Committee and the Union of Sports Federations of Macedonia, organized the 14<sup>th</sup> International Scientific and Professional Conference on physical education and sport activities of youth. The Conference addressed the basic topic: “Relations between students involved in physical education and training process for anthropological status and sport results improvement”. Besides the basic topic, also other themes were discussed in the field of physical education, sports and kinesiology.

Over 160 participants from a number of countries presented 110 scientific and professional studies related to the basic and other themes in these fields, as well as in certain inter-disciplinary fields of biological and medical sciences, kinesiotherapy, psychology, pedagogy, sociology, management and other related scientific disciplines.

The participants were welcomed by a number of managerial personnel from higher education institutions, social activities, as well as from sports organizations of participant countries in the Conference.

Opening remarks on the topics of the Conference were made by Prof. PhD Aleksandar Naumovski, President of the Federation of Sports Pedagogues of the Republic of Macedonia.

Taking into account results and concluding remarks in presented studies, as well as the discussion that had followed, the participants defined some relevant recommendations for increased involvement of youth in the process of physical education and training activities in the context of improvement of their capabilities and anthropological status.

Thereby, increased need has been perceived for exercising democratic right of youth for participation in activities within the physical education and sports, with elements of expressed humanization in achieving better sport results of importance for affirmation of the national interests of any country.
